MISSIONE 6 - SALUTE

Progetti PNRR finanziati sul bando 2022_Finanziati dall'UE_ Next Generation EU - Missione 6

Responsabile scientifico	codice progetto	Titlo	CUP	Finanziamento assegnato ad AOUP	Rimodulazione	data di Avvio	Anno 2025
Barbagallo M.	PNRR-MAD-2022-12376781	A Personalized Prevention Program (PPP) based on the Comprehensive Geriatric Assessment (CGA) for the prevention of multidimensional frailty related to non-communicable chronic diseases (NCDs) in older people: a practical approach in primary care setting (PrimaCare_P3)	I73C22000680006	**140.500,00 €**	**no**	**15/05/2023**	in corso
Bellia C.	PNRR-POC-2022-12376842	Role of Peroxiredoxin-6 as New Insulin and GLP-1 secretagogue agent and Peroxiredoxins as Common Soil In Type 2 Diabetes, COPD and Asthma	I77G22000300006	**150.000,00 €**	**no**	**20/05/2023**	in corso
Botta C.	PNRR-MAD-2022-12376660	Integrative multi-omics analysis to predict monoclonal gammopathies clinical evolution;	I75E22000560006	**301.740,00 €**	**270.907,85 €**	**19/05/2023**	in corso
Brighina F.	PNRR-MR1-2022-12375938	Neural Stem Cell Treatment for Amyotrophic Lateral Sclerosis: A multicenter, randomized placebo controlled and biological endpoints clinical trial	I73C21000200005	**131.000,00 €**	**no**	**20/05/2023**	in corso
Calvaruso V.	PNRR-MR1-2022-12376395	Italian Autoimmune Liver Disease (IT-AILD) Clinical Research Network (CRN)	I73C22000530006	**202.065,00 €**	**178.690,00 €**	**10/05/2023**	in corso
Ciaccio M.	PNRR-POC-2022-12375750	Diagnostic innovation for inflammatory bowel diseases in children and adults: non invasive stool and salivary testing with ecologic new methods and biomaterials	I73C22000690006	**399.960,00 €**	**267.089,92 €**	**20/05/2023**	in corso
Dieli F.	PNRR-MAD-2022-12375909	From inflammatory bowel disease to colon cancer: involvement of innate lymphocytes in early pathogenic mechanisms	I73C22000510008	**225.000,00 €**	**no**	**20/05/2023**	in corso
Guggino G.	PNRR-MAD-2022-12376876	Multiomic characterization of entheseal disease in psoriasis and psoriatic arthritis: implication for disease severity	I73C22000660006	**354.000,00 €**	**no**	**20/05/2023**	in corso
Iacopino D.	PNRR-POC-2022-12376588	Developing proprietary fluorescent probes targeting high grade gliomas into useful tools for oncosurgery and theranostic	I73C22000700006	**360.000,00 €**	**no**	**20/05/2023**	in corso
La Cascia C.	PNRR-MAD-2022-12375751	Metabolic syndrome in people treated with antipsychotics: a multimethod investigation of genetic, behavioural and environmental risk factors (RISKMet)	I73C22000520006	**227.300,00 €**	**198.300,00 €**	**15/05/2023**	in corso
Mazzucco	PNRR-MAD-2022-12375795	Innovative approaches for personalised cardiovascular prevention: multicentre randomised controlled study and multidisciplinary evalutation for a National Health Service implementation	I73C22000650006	**225.000,00 €**	**no**	**20/05/2023**	in corso
Meraviglia	PNRR-POC-2022-12375658	A next generation DNA vaccine coding for immunodominant sequences of alpha-enolase to cure pancreatic cancer	I73C22000500006	**380.000,00 €**	**no**	**20/05/2023**	in corso
Mulè	PNRR-MR1-2022-12375953	Validation, implementation, and cost-analysis of a strategy for personalized diagnosis of rare kidney diseases	I75E22000530008	**138.000,00 €**	**no**	**15/05/2023**	in corso
Petta S	PNRR-MAD-2022-12375656	RATIONAL: Risk strAtificaTIon Of Nonalcoholic fAtty Liver	I75E22000540006	**271.000,00 €**	**no**	**20/05/2023**	in corso
Piccoli	PNRR-MAD-2022-12375798	**Genetics and Environment iNtersection In the Amyotrophic Lateral Sclerosis - FrontoTemporal Dementia spectrum: an Italian Twins cohort studY with a Multi-Omics approach (GENIALITY)**	I73C22000750006	**396.900,00 €**	**no**	**20/05/2023**	in corso
Ragonese	PNRR-POC-2022-12376099	Discorvery of novel neuroprotective drugable targets and repurposed drugs to treat incurable neurodegenerative disorders.	I73C22000540006	**200.000,00 €**	**no**	**20/05/2023**	in corso

Salemi	PNRR-MAD-2022-12375822	Discorvery of novel neuroprotective drugable targets and repurposed drugs to treat incurable neurodegenerative disorders.	I75E22000550006	**200.000,00 €**	**no**	**18/05/2023**	in corso
TOTALE				**4.302.465,00 €**	**914.987,77 €**		

Progetti PNRR finanziati sul bando 2023_Finanziati dall'UE_ Next Generation EU

Responsabile scientifico	codice progetto	Titolo	CUP	Finanziamento totale	Rimodulazione	data di Avvio	Anno 2025
Badalamenti G.	PNRR-TR1-2023-12378370	EpigenOMic determinants of the neuroendocrine phenotype as biomarkers for noninvasive diagnosis of neuroendocrine neoplasms.	**I73C24000320006**	**400.000,00 €**	**no**	**30/08/2024**	in corso
Barbagallo M.	PNRR-MCNT1_2023-12378321	Blood biomarkErs for the identificATion of Alzheimer's disease (BEAT Alzheimer)	**I73C23000440006**	**354.400,68 €**	**no**	**31/08/2024**	in corso
Bellia C.	PNRR-MCNT2-2023-12377966	TMAO AND OXIDATIVE STRESS BIOMARKERS AS INNOVATIVE DIAGNOSTIC TOOL IN CARDIO-RENALMETABOLIC DISEASES: A PILOT STUDY	**I73C24000250006**	**108.000,00 €**	**no**	**31/08/2027**	in corso
Brancatelli G.	PNRR-TR1-2023-12377797	Imaging-based Artificial Intelligence diagnosis of MUsculoskeletal SARComas (AI-MUSARC)	**I73C24000300006**	**299.300,00 €**	**no**	**31/08/2024**	in corso
Calvaruso V.	PNRR-MCNT2-2023-12377463	Safety and efficacy of a high quality human albumin solution in patients with decompensated cirrhosis (SUPERalbumin).	**I73C24000260006**	**196.880,00 €**	**no**	**12/11/2024**	in corso
Cabibbo G.	PNRR-MCNT2-2023-12378326	Bile-Biopsy: Biliary mutational analysis in patients affected by biliopancreatic maliganancies. A prospective observational study	**I75E23000110006**	**250.000,00 €**	**no**	**31/08/2024**	in corso
Dieli F.	PNRR-TR1-2023-12377714	Multidisciplinary and Multiomic approach to dissect the cellular network in the glioma microenvironment: translational perspective to improve patient's management	**I73C24000220006**	**223.150,00 €**	**no**	**31/08/2024**	in corso
Iacopino D.	PNRR-TR1-2023-12378160	Development of new effective strategies and innovative drug delivery systems for pediatric diffuse midline glioma	**I73C23000510007**	**30.000,00 €**	**no**	**31/08/2024**	in corso
Licata A.	PNRR-MCNT2-2023-12378247	Optimizing noninvasive assessMent Of DysmEtabolic compensated advanced Liver disease by integration of artificial intelligence model and omicS data (MODELS)	**I73C23000490007**	**200.000,00 €**	**no**	**31/08/2024**	in corso
Mancuso S.	PNRR-POC-2023-12377901	Development of Innovative Personalized Idiotypic mRNA-Based Dendritic Cells and Lipid Nanoparticle Vaccines, for Indolent B-Cell Lymphomas and Chronic Lymphocytic Leukemias	**I73C24000290006**	**115.346,00 €**	**no**	**31/08/2024**	in corso
Mansueto P.	PNRR-MCNT2-2023-12378038	Impact of wheat-free and ancient grain-based diets on symptoms, quality of life and inflammation in patients with Irritable Bowel Syndrome	**I73C23000450005**	**508.618,00 €**	**no**	**31/08/2024**	in corso
Meraviglia S.	PNRR-MCNT2-2023-12378122	Improving Cancer Immunotherapy responsiveness by inducing Tertiary Lymphoid structures via the activation of innate lymphocytes (ICI-TeL)	**I73C23000480006**	**215.000,00 €**	**no**	**31/08/2024**	in corso
Monastero R.	PNRR-MCNT2-2023-12377271	Clinical application and usability of Blood Biomarkers as screening tool in Alzheimer disease: a Validation Study	**I73C23000500007**	**304.000,00 €**	**no**	**31/08/2024**	in corso
Noto D.	PNRR-MCNT2-2023-12377808	Personalized medicine in cardiovascular diseases: a biomarker signature for high and very high patients	**I73C24000230006**	**120.000,00 €**	**no**	**31/08/2024**	in corso

Todaro M.	PNRR-MCNT1-2023-12377772	Malattie Croniche non trasmissibili con topic su Fattori di rischio e prevenzione o Eziopatogenesi e meccanismi di malattia	**I73C24000370007**	**390.000,00 €**	**no**	**31/08/2024**	in corso
TOTALE				**3.714.694,68 €**	**0,00 €**		

PNRR Progetto Finanziato a valere su Bando a Cascata- Finanziati dall'UE_ Next Generation EU -Missione 4 Istruzione e Ricerca

Responsabile scientifico	codice progetto	Titolo	CUP	Finanziamento	Rimodulazione	data di Avvio	Anno 2025
Rizzo M.	PE 00000019	"Lipoprotein, inflammatory and pro-atherogenic profile in NAFLD/NASH: potential novel diagnostic tools (LIPANTO	B53C22004000006	**126.000,00 €**	**126.000,00 €**	01/08/2024	in corso

Progetti Finanziati dalla UE Bando Eu4Health

Responsabile scientifico	codice progetto / CUP	Titolo	CUP	Finanziamento	Rimodulazione	data di Avvio	Anno 2025
Rizzo M.	101126953	JACARDI- Joint Action on Cardiovascular diseases and diabetes	I79I23000700006	**169.325,36 €**	**no**	**01/11/2023**	in corso
Mazzucco W.	101219450	Cancer Watch - Joint Action	I75E25000330006	**46.139,26 €**	**no**	**01/09/2025**	in corso
Mazzucco W.	210915889	ELISAH_European Linkage of Initiative from Science to Action in Health	I73C22000780006	**66.343,70 €**	**no**	**01/01/2024**	in corso

Progetti di Ricerca Finalizzata

Responsabile scientifico	codice progetto	Titolo	CUP	Finanziamento totale	Rimodulazione	data di Avvio	Anno 2025
Petta	RF-2021-12372399	Portal Hypertension in patients with NAFLD	I77G22000290001	**160.000,00 €**	**no**	**30/04/2023**	in corso
